Allergies and Special Diets

Just Joes takes the safety of its customers as its highest priority, with this in mind we feel it is of paramount importance to let all customers know our position on Allergens in our Kitchens.

If you suffer from an Allergy or need to provide food for any person with an allergy it is of the utmost importance that you recognise this statement, alternatively that you share this information with the person who has requested the meal.

Just Joes operates from two artisan style kitchens and a bakery where all allergens are present at all times and are in constant use. While we make every effort to prevent cross contamination in these kitchens, we cannot guarantee that any food item we make is 100% FREE of any specific allergen.

For customers with Mild food Allergies and Food Intolerances we have created a separate non-Allergen Zone away from our main kitchens where only ingredients without any allergens will be allowed.

Please contact us for more details and menu options.
